

School SIS Case Study

Nordvik Region — Student Information System

Client Nordvik Region · Sector Education · Delivered 2024

Meridian Digital delivered a full student information system for the Nordvik Region.

1. Background

This section sets out the engagement background and objectives applicable to this procurement. Bidders shall respond in the order presented and reference each clause number in their submission. Where evidence is required, it must be current at the submission deadline and provided in a machine-readable format. The contracting authority reserves the right to request clarification of any statement made in response to this section.

2. Solution

This section sets out the solution architecture and rollout approach applicable to this procurement. Bidders shall respond in the order presented and reference each clause number in their submission. Where evidence is required, it must be current at the submission deadline and provided in a machine-readable format. The contracting authority reserves the right to request clarification of any statement made in response to this section.

3. Delivered Outcomes

Meridian delivered a student information system for 42,000 students in 2024, covering enrolment, records management, and reporting across 60 schools. The programme included data migration from three legacy systems and training for 900 administrative staff. Go-live was achieved on schedule with no critical defects outstanding.

4. Results

This section sets out the measured results and client references applicable to this procurement. Bidders shall respond in the order presented and reference each clause number in their submission. Where evidence is required, it must be current at the submission deadline and provided in a machine-readable format. The contracting authority reserves the right to request clarification of any statement made in response to this section.

5. References

A client reference is available on request, contactable for verification.
